#### Customer Problem Statement :

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS	Patient to check presence of CKD	To check the health of my kidneys	Sometimes i can't able to depend on the model	If the model does not predict accurately	Which makes me feel frustrated to use these kinds of web apps.
