# **Project Planning Phase**

**Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)** 

| reject i iai i i i g rempiate (i readet zaci | jest of the second of the seco |
|--|--|
| Date   | 18 October 2022  |
| Team ID                                      | PNT2022TMID25007   |
| Project Name                                 | Project - Early Detection Of Chronic Kidney<br>Prediction  |
| Maximum Marks                                | 8 Marks  |

## **Product Backlog, Sprint Schedule, and Estimation (4 Marks)**

Use the below template to create product backlog and sprint schedule

| Sprint   | Functional<br>Requirement (Epic) | User Story<br>Number | User Story / Task  | Story Points | Priority | Team<br>Members              |
|----------|----------------------------------|----------------------|--|--------------|----------|------------------------------|
| Sprint-1 | Enter into home page             | USN-1                | As a user, I can enter into the web application.   | 2            | High     | Shruthi.C                    |
| Sprint-2 | To Enter into<br>Prediction      | USN-2                | Users will be displayed with a prediction button.  | 1            | High     | Srishha D                    |
| Sprint-3 | Predict Page                     | USN-3                | When the prediction button is clicked the page is displayed to enter their values of report. | 2            | Low      | Periya Nayaki<br>Subhiksha P |

| Sprint-3 |        | USN-4 | Users must enter the blood glucose report parameters.  | 2 | Medium |                                 |
|----------|--------|-------|--|---|--------|---------------------------------|
| Sprint-4 | Result | USN-5 | User will get the result of the chronic kidney disease | 1 | High   | Senbagavalli<br>Madhumitha<br>R |

**Project Tracker, Velocity & Burndown Chart: (4 Marks)** 

| Sprint   | Total Story<br>Points | Duration | Sprint Start Date | Sprint End Date<br>(Planned) | Story Points<br>Completed (as<br>on Planned<br>End Date) | Sprint Release Date<br>(Actual) |
|----------|-----------------------|----------|-------------------|------------------------------|--|---------------------------------|
| Sprint-1 | 20                    | 6 Days   | 24 Oct 2022       | 29 Oct 2022                  | 20   | 29 Oct 2022                     |
| Sprint-2 | 20                    | 6 Days   | 31 Oct 2022       | 05 Nov 2022                  |  |                                 |
| Sprint-3 | 20                    | 6 Days   | 07 Nov 2022       | 12 Nov 2022                  |  |                                 |
| Sprint-4 | 20                    | 6 Days   | 14 Nov 2022       | 19 Nov 2022                  |  |                                 |

## **Velocity:**

Imagine we have a 10-day sprint duration, and the velocity of the team is 20 (points per sprint). Let's calculate the team's average velocity (AV) per iteration unit (story points per day)

$$AV = \frac{sprint\ duration}{velocity} = \frac{20}{10} = 2$$

### **Burndown Chart:**

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.
